

# WHAT A YEAR in the blood cancer community!

The LLSC helped about 10,000 Canadians:  
we'll let the numbers do the talking!

**\$5,000,000**

invested in the work of **37** blood cancer researchers across Canada

**7,319**

people engaged in educational events

**4,000**

phone calls and emails responded to, sending information, support and services requested

**1,000**

healthcare professionals trained on our continuing education platform

**132**

healthcare professionals in 10 provinces signed up for our After Cancer Care continuing education training

**1<sup>st</sup>**

Pediatric Oncology Day hosted by the LLSC at the 2023 Canadian Association of Nurses in Oncology conference

**309**

individuals engaged in our virtual support groups at a total of 52 meetings

**773**

people financially supported for medical travel in our One Kilometre at a Time subsidy program

**1,700**

registrants for a single webcast (causes of blood cancer)

**438**

requests for individuals seeking peer matches in our First Connection program

**25**

short, animated videos created, depicting specific types of blood cancer, their treatment, and cancer survivorship issues (such as fear of recurrence)
